Hi Ramu,

Can you please work with ASA and see if we get funding from them. Right now we just need to know the rules and procedures.

Subject: RE: Funding for Student Organization from department

To: "Rajat Aggarwal (Student)" <[Rajat.A.Aggarwal@asu.edu](mailto:Rajat.A.Aggarwal@asu.edu)>

Hello Rajat,

Below is the response I received from CIDSE. It is my understanding that you should work with the Academic and Student Affairs department through the Dean's Office.

"First work with Fulton's ASA group if it is an Engineering student group. Who is the faculty sponsor and do they have a mission statement or some kind of charter?"

Hope this helps,

**Christina Sebring**

**Subject:** Funding for Student Organization from department

Hi Christina,

This might be a little unusual to be asked from advisor, but I didn't know any better person for this query. We are newly formed student organization for graduate student under Ira A. Fulton School of Engineering, named as GESSA. For academic and social events that we want to hold, we wish to request for funding from department. I was wondering if there is any provision from department in this context. If you can throw some light on any such provision and procedures (if any), we would highly appreciate that.

We have also applied to GPSA which is university wide source of funding for organizations, but it is likely they would be reluctant for department only events.

Thanks & Regards,

Rajat Aggarwal
