Sushrut Dabir		sdabir@asu.edu
Description of Interaction with Sponsor		
<p>Sushrut has been part of the team that has formed up GESSA and he knows in and out of the programs that are going to be held. Although he is not directly a part of executive team, he works with our organization in planning and execution. He has been part of two biweekly meetings that GESSA had in the past 2 months. Financial plan and schedule was sent to Sushrut before filling this application.</p>		
EVENT DETAILS		
Event	Passport to ASU, GESSA Tutoring, GESSA Social	
Event Date	2015-08-28	
Graduates Students	Undergraduate Students	Total
200	0	0
Event Description		
<p>GESSA Tutoring:  This will be a weekly 2 hour tutoring session on new or old technologies that students wish to learn for their courses or for their personal interests. It will go on for 8-12 weeks depending on traction. For each session we are expecting ~20 students to be present.  Through this program we are trying to increase collaborative learning among graduate engineering students and reduce the time someone takes to learn basic concepts. Tutors will be voluntary students who would want to selflessly share their knowledge with rest of the</p>		

students. They will be provided with an exclusive Tutor T-shirt (subject to approval), certificates from GESSA (which they should be able to use for mentorship awards given by university through GPSA and elsewhere). Each tutor session will also have refreshments.

#### GESSA Social

In August when new students will arrive at the campus, this social will give them an opportunity to interact with fellow friends and seniors and know more about their department and college.

For current students, this social will help create a bond for possible future partnership and engagement.

Date: August 28. Venue is yet to be decided.

Estimated attendees : 100

Cost : \$500

#### Marketing Strategy

The events are specifically for graduate students under Ira A. Fulton School of engineering, but by ASU and GPSA guidelines it will not be disallowed for other students to take part in. We plan to advertise by flyers, department contact advisors, digital advertisements, GRADSTU listservs and social media. We have also a desk reserved in Passport to ASU where we will be advertising our programs to all students. Optionally, as the need may arise, we may host a desk in Brickyard, MU and Engineering Center.

#### BUDGET DETAILS

**Total Cost**

1130

**Amount from GPSA**

1130

#### Alternate Source of Funding

There were other attempts to get funds, mostly through Campus Vendor list provided by ASU Clubs. Potentially \$75-\$150 can be gathered when school starts using this channel. Most of the general expenditure including expenses for meetings will be covered using this channel and such expenses are not being included in funding requests to GPSA.
